

pro_tek[®]

Since 1990

AUTO CUT STABILIZER

WITH MICRO CONTROLLER DEVICE

APPLICATIONS :

- Music Systems.
- Musical party outdoor programme.
- Offices.
- Printing Machines.
- Residences.
- R & D Lab.
- Testing / Measuring Instruments.

SPECIFICATIONS :

- **Input** : 100 V - 300 V / As REQUIRED (Optional).
- **Output** : Settable Voltage with On load tap change switch-230 Volts.
- **Metering** : Digital Display : Input volts / **Output Volts.**
- **Frequency** : 50 \pm Hz 3 Hz, Same as input.
- **Efficiency** : > 99%.
- **Harmonic Distortion** : Nil, Sine wave output (as Input).
- **Capacity** : 2 KVA to 10KVA, Higher capacity available on demand.
- **Overload** : 120% for 60 Sec.
- **Protection** : Auto cut off at ADJECT SET OUTPUT VOLTAGE, Auto Reset and Output available at even 1 Volt below set voltage.
- **Pre Buzzer Alarm** : Audible alarm at ~ 5 Volts before set cutoff voltage to do reduction of output by switch, avoids output cutoff.
