

Specifications

Technology	: Pulse Width Modulation
Topology	: Off Line UPS, Line Interactive UPS
Input Voltage	: 180 V to 285 V
Output Voltage	: 230 V \pm 6% (Typical)
Battery Voltage	: 12V / 24V / 36V
Type of Charging	: CC – CV Constant Voltage with limited Current
Charging Time	: 7 Hours (90% Charge)
Frequency	: 50 Hz \pm 1%
Power Factor	: 0.6
Indication	: MAINS OK, INVERTER ON, INVERTER TRIP
Alarm	: UPS Mode – Intermittent in every 15 sec Low Battery Pre-Trip Continuous in every 2 sec.
Backup	: 20 Min.
Dimension	: Size Above Rating On Request
Output Wave Form	: Quasi Square Synchronized Sinusoidal Wave Form
Protection	: Surge & Spike, Overload, Short Circuit, Low Battery
